

# Ksenia Shabelnikov

## FrontEnd / FullStack Developer

(80% Frontend JavaScript / TypeScript / React / Redux || 20% Backend Node.js/Java/Spring Framework)

Phone: +(972) 53 720-80-33

E-mail: [ksenia.shabelnikov@gmail.com](mailto:ksenia.shabelnikov@gmail.com)

LinkedIn: <https://www.linkedin.com/in/ksenia-shabelnikov/> Residence: Israel

Languages: Hebrew(good), English(fluent), Russian(native)

### Professional skills:

**Programming languages:** JavaScript, TypeScript, Java, SQL

**Front-End Development:** React, React Native, Redux, Next.js, HTML, CSS, SCSS, Tailwind

**Back-End Development:** Node.js, Express.js, MongoDB

**Testing and API development:** Rest API, Postman, Swagger, Jest, Cypress

**Databases:** PostgreSQL, MongoDB

**IDE/Tools:** WebStorm, VSCode, Eclipse, Jira, Slack, Git, GitHub

### Professional experience:

#### • 2022 – now: FullStack Developer at Inetex LTD (Rehovot, Israel)

**My tasks:** Developing new reusable components from scratch through testing according to the design and tasks agreed upon with the team lead, both layouts (including responsive layout) and business logic. Creating integration with server-side components and APIs, fixing bugs on server side.

Improving customers' user experience based on users' reports. Taking part in the team meetings to discuss the logic of the project. Refactoring the existing code to reach maximum speed and scalability.

**Tools used:** TypeScript, JavaScript, Next.js, Tailwind, Git, React, Redux, Postman, Jest

#### • 2020–2022: FullStack Developer at Soundservice LLC (Moscow, Russia)

**My tasks:** Translating graphic design mockups into responsive and cross-browser compatible web pages. Writing clean, well-organized, and semantically structured HTML, CSS and JS code using BEM technology, and refactoring the existing code using advanced contemporary technologies. Working collaboratively with a team of designers and managers to develop the most effective product as attractive for customer as possible. As part of the team, discussing new features, bugs, and development processes, fixing bugs on server side.

**Tools used:** JavaScript, React, Redux, Postman, Typescript

#### • 2018–2020: IT Support Administrator at Soundservice LLC (Moscow, Russia)

**My tasks:** Updating existing site with new products directly in the code, writing and editing site content to improve customer experience, supporting and helping customers to make optimal choice to order a suitable service. Identifying and implementing solutions for content improvement and simplification to reduce redundancy and increase efficiency for improved customer experience.

**Tools used:** HTML, CSS, Adobe Photoshop

### Education:

**2004–2008: Information Systems and Technologies** in Economics, The Kosygin State University, Moscow, Russia, Bachelor's Degree

**2020: FrontEnd Development Bootcamp**, Yandex Practicum, Russia

**2020: Advanced FullStack development** (retraining program), Tel-Ran Educational Center, Israel
